Subject index

Ac measurements
Investigation of the adsorption of Sb(III) from chloride solutions at the DME by ac measurements (Krumbein et al.) 245
Acetonitrile
Oxidative polymerization of *p*-aminoazobenzene in acentonitrile. A new electroactive polymer (Abd El-Rahman et al.) 161
Adiabatic electron transfer
Adiabatic outer sphere electron transfer through the metal–electrolyte interface (Gorodyskii et al.) 9
Adsorption
Investigation of the adsorption of Sb(III) from chloride solutions at the DME by ac measurements (Krumbein et al.) 245
Alkaline earth complexes
A competitive polarographic study of alkaline earth complexes with some crown ethers using the Tl(I)/Tl(Hg) couple as an electrochemical probe (Semnani, Shamsipur) 95
Alkanes
The anodic behavior of saturated hydrocarbons in fluorosulfuric acid. Part II. Oligomerisation of the three lightest alkanes (Herlem, Jobert-Perol) 87
p-Aminoazobenzene
Oxidative polymerization of *p*-aminoazobenzene in acetonitrile. A new electroactive polymer (Abd El-Rahman et al.) 161
Ammonia
Electrode kinetics of $[Ru(NH_3)_6]^{3+/2+}$ complex confined in montmorillonite clay coatings on graphite electrodes (Okajima et al.) 175
Anodic oxidation
Renewed interest on the photosensitivity of α-PbO prepared by anodix oxidation of lead in alkaline solutions. Its photoelectrochemical properties (Veluchamy et al.) 293
Antimony
Investigation of the adsorption of Sb(III) from chloride solutions at the DME by ac measurements (Krumbein et al.) 245
The processes of formation of a gel-like anodic layer during polarization of antimony electrode in H_2SO_4 solution (Bojinov, Pavlov) 201
Ascorbic acid
Electrocatalytic oxidation of ascorbic acid at a Prussian Blue film modified microdisk electrode (Dong, Che) 191

Catalysis
Electrocatalytic oxidation of ascorbic acid at a Prussian Blue film modified microdisk electrode (Dong, Che) 191
Chloride solutions
Investigation of the adsorption of Sb(III) from chloride solutions at the DME by ac measurements (Krumbein et al.) 245
Cleavage
Electrochemical cleavage of some protecting groups from the sulphydryl function in aprotic solvents (Delerue-Matos et al.) 1
Cobalt
Electrochemical behaviour of zeolite-encapsulated cobalt phthalocyanine complex in DMSO and DMF solutions (Bedioui et al.) 313
Copper
Detailed underpotential deposition of copper on gold(111) in aqueous solutions (Hachija et al.) 275
Crown ethers
A competitive polarographic study of alkaline earth complexes with some crown ethers using the Tl(I)/Tl(Hg) couple as an electrochemical probe (Semnani, Shamsipur) 95

Cyclic voltammetry
Cyclic voltammetry of platinum single crystal electrodes in solutions containing urea (Rubel et al.) 301

DME
Investigation of the adsorption of Sb(III) from chloride solutions at the DME by ac measurements (Krumbein et al.) 245
DMF
Electrochemical behaviour of zeolite-encapsulated cobalt phthalocyanine complex in DMSO and DMF solutions (Bedioui et al.) 313
DMSO
Electrochemical behaviour of zeolite-encapsulated cobalt phthalocyanine complex in DMSO and DMF solutions (Bedioui et al.) 313

EDTA
Electrochemical reduction mechanism of EDTA complexes of U^{4+} and UO_2^{2+} at HMDE in aqueous solution (Jung et al.) 113
Electron transfer
Adiabatic outer sphere electron transfer through the metal–electrolyte interface (Gorodyskii et al.) 9
Enzymatic reduction
A polypyrrole $[Rh^{III}(C_5Me_5)(byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 307
Eutectic mixture
Electrochemical characterization of the O_2^-/O_2^{2-} system in molten $Na_2CO_3 + K_2CO_3$ eutectic at 750 °C (Moutiers et al.) 103

Fluoro-sulfuric acid
The anodic behavior of saturated hydrocarbons in fluorosulfuric acid. Part II. Oligomerisation of the three lightest alkanes (Herlem, Jobert-Perol) 87
Frequency dependence
A reappraisal of the frequency dependence of the impedance of semiconductor electrodes (Osham et al.) 65

Gel-like anodic layers
The processes of formation of a gel-like anodic layer during polarization of antimony electrode in H_2SO_4 solution (Bojinov, Pavlov) 201
Gold
Detailed underpotential deposition of copper on gold(111) in aqueous solutions (Hachiya et al.) 275
Graphite electrodes
Electrode kinetics of $[Ru(NH_3)_6]^{3+/2+}$ complex confined in montmorillonite clay coatings on graphite electrodes (Okajima et al.) 175

HMDE
Electrochemical reduction mechanism of EDTA complexes of U^{4+} and UO_2^{2+} at HMDE in aqueous solution (Jung et al.) 113

Impedance
A reappraisal of the frequency dependence of the impedance of semiconductor electrodes (Oskam et al.) 65
Iodine
A competitive polarographic study of alkaline earth complexes with some crown ethers using the Tl(I)/Tl(Hg) couple as in an electrochemical probe (Semnani, Shamsipur) 95

Kinetics
Electrode kinetics of $[Ru(NH_3)_6]^{3+/2+}$ complex confined in montmorillonite clay coatings on graphite electrodes (Okajima et al.) 175
Kynurenine peptides
Determination of the redox active forms of oxindolylalanine and peptides of kynurenine on the basis of electrochemical studies of mercury electrodes in aqueous media (Bond et al.) 125

Laser activation
Short-pulse laser activation of metal electrodes (Benderskii et al.) 29
Lead
Renewed interest on the photosensitivity of α-PbO prepared by anodix oxidation of lead in alkaline solutions. Its photoelectrochemical properties (Veluchamy et al.) 293

Mercury
A competitive polarographic study of alkaline earth complexes with some crown ethers using the Tl(I)/Tl(Hg) couple as an electrochemical probe (Semnani, Shamsipur) 95
Mercury electrodes
Determination of the redox active forms of oxindolylalanine and peptides of kynurenine on the basis of electrochemical studies of mercury electrodes in aqueous media (Bond et al.) 125
Metal electrodes
Short-pulse laser activiation of metal electrodes (Benderskii et al.) 29
Microdisk electrode
Electrocatalytic oxidation of ascorbic acid at a Prussian Blue film modified microdisk electrode (Dong, Che) 191
Microelectrodes
Microelectrode studies in the absence of deliberately added supporting electrolyte: solvent dependence for a neutral and singly charged species (Cooper, Bond) 143
Modified electrodes
A polypyrrole $[Rh^{III}(C_5Me_5)\ (byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 305
Monolayer
Electrochemical behaviour of monolayer quinoprotein adsorbed on the electrode surface (Khan et al.) 263
Montmorillonite clay coatings
Electrode kinetics of $[Ru(NH_3)_6]^{3+/2+}$ complex confined in montmorillonite clay coatings on graphite electrodes (Okajima et al.) 175
Multi-charged species
New multi-charged viologen derivatives. Part 1. Electrochemical behaviour in Nafion films (Porat et al.) 217
New multi-charged viologen derivatives. Part 2. Unusual electrochemical behaviour in solution (Porat et al.) 225

NAD^+ cofactor
A polypyrrole $[Rh^{III}(C_5Me_5)(byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 305
Nafion films
New multi-charged viologen derivatives. Part 1. Electrochemical behaviour in Nafion films (Porat et al.) 217
Neutral species
Microelectrode studies in the absence of deliberately added supporting electrolyte: solvent dependence for a neutral and singly charged species (Cooper, Bond) 143

O_2^-/O_2^{2-} system
Electrochemical characterization of the O_2^-/O_2^{2-} system in molten $Na_2CO_3 + K_2CO_3$ eutectic at 750 °C (Moutiers et al.) 103
Oligomerisation
The anodic behavior of saturated hydrocarbons in fluorosulfuric acid. Part II. Oligomerisation of the three lightest alkanes (Oskam et al.) 87
Oxidation
Electrocatalytic oxidation of ascorbic acid at a Prussian Blue film modified microdisk electrode (Dong, Che) 191
Oxindolylalanine
Determination of the redox active forms of oxindolylalanine and peptides of kynurenine on the basis of electrochemical studies of mercury electrodes in aqueous media (Bond et al.) 125

Phase transitions
A model for sequential first-order phase transitions occurring in the underpotential deposition of metals (Huckaby et al.) 255
Photoelectrochemistry
Renewed interest on the photosensitivity of α-PbO prepared by anodic oxidation of lead in alkaline solutions. Its photoelectrochemical properties (Veluchamy et al.) 293
Photosensitivity
Renewed interest on the photosensitivity of α-PbO prepared by anodic oxidation of lead in alkaline solutions. Its photoelectrochemical properties (Veluchamy et al.) 293
Phthalocyanine
Electrochemical behavior of zeolite-encapsulated cobalt phthalocyanine complex in DMSO and DMF solutions (Bedioui et al.) 311
Platinum
Cyclic voltammetry of platinum single crystal

electrodes in solutions containing urea (Rubel et al.) 301

Polarization

The processes of formation of a gel-like anodic layer during polarization of antimony electrode in H_2SO_4 solution (Bojinov, Pavlov) 201

Polarography

A competitive polarographic study of alkaline earth complexes with some crown ethers using the Tl(I)/Tl(Hg) couple as an electrochemical probe (Semnani, Shamsipur) 95

Polymerization

Oxidative polymerization of *p*-aminoazobenzene in acetonitrile. A new electroactive polymer (Abd El-Rahman et al.) 161

Potassium

Electrochemical characterization of the O_2^-/O_2^{2-} system in molten $Na_2CO_3 + K_2CO_3$ eutectic at 750 °C (Moutiers et al.) 103

Protecting groups

Electrochemical cleavage of some protecting groups from the sulphydryl function in aprotic solvents (Delerue-Matos et al.) 1

Prussian Blue

Electrocatalytic oxidation of ascorbic acid at a Prussian Blue film modified microdisk electrode (Dong, Che) 191

Pyrrole

A polypyrrole $[Rh^{III}(C_5Me_5)(byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 307

Pyruvate

A polypyrrole $[Rh^{III}(C_5Me_5)(byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 307

Quinoprotein monolayer

Electrochemical behaviour of monolayer quinoprotein adsorbed on the electrode surface (Khan et al.) 263

Redox active forms

Determination of the redox active forms of oxindolylalanine and peptides of kynurenine on the basis of electrochemical studies of mercury electrodes in aqueous media (Bond et al.) 125

Reduction

A polypyrrole $[Rh^{III}(C_5Me_5)(byp)Cl]^+$ modified electrode for the reduction of NAD^+ cofactor. Application to the enzymatic reduction of pyruvate (Cosnier, Gunther) 305

Electrochemical reduction mechanism of EDTA complexes of U^{4+} and UO_2^{2+} at HMDE in aqueous solution (Jung et al.) 113

Ruthenium

Electrode kinetics of $[Ru(NH_3)_6]^{3+/2+}$ complex confined in montmorillonite clay coatings on graphite electrodes (Okajima et al.) 175

Semiconductor electrodes

A reappraisal of the frequency dependence of the impedance of semiconductor electrodes (Oskam et al.) 65

Single crystal electrodes

Cyclic voltammetry of platinum single crystal electrodes in solutions containing urea (Rubel et al.) 299

Singly charged species

Microelectrode studies in the absence of the deliberately added supporting electrolyte: solvent dependence for a neutral and singly charged species (Cooper, Bond) 143

Sodium

Electrochemical characterization of the O_2^-/O_2^{2-} system in molten $Na_2CO_3 + K_2CO_3$ eutectic at 750 °C (Montiers et al.) 103

Solvent dependence

Microelectrode studies in the absence of deliberately added supporting electrolyte: solvent dependence for a neutral and singly charged species (Cooper, Bond) 143

Sulphuric acid

The processes of formation of a gel-like anodic layer during polarization of antimony electrode in H_2SO_4 solution (Bojinov, Pavlov) 201

Sulphydryl group

Electrochemical cleavage of some protecting groups from the sulphydryl function in aprotic solvents (Delerue-Matos et al.) 1

Tantalum

A competitive polarographic study of alkaline earth complexes with some crown ethers

using the Tl(I)/Tl(Hg) couple as an electrochemical probe (Semnani, Shamsipur) 95

Underpotential deposition
A model for sequential first-order phase transitions occurring in the underpotential deposition of metals (Porat et al.) 255
Detailed underpotential deposition of copper on gold(111) in aqueous solutions (Hachiya et al.) 275

Uranium
Electrochemical reduction mechanism of EDTA complexes of U^{4+} and UO^{2+} at HMDE in aqueous solution (Jung et al.) 113

Urea
Cyclic voltammetry of platinum single crystal electrodes in solutions containing urea (Rubel et al.) 301

Viologen
New multi-charged viologen derivatives. Part 1. Electrochemical behaviour in Nafion films (Porat et al.) 217
New multi-charged viologen derivatives. Part 2. Unusual electrochemical behaviour in solution (Porat et al.) 225

Zeolite
Electrochemical behaviour of zeolite-encapsulated cobalt phthalocyanine complex in DMSO and DMF solutions (Bedioui et al.) 313
